

Golden Service for Your Golden Years!

A Hospital Stay Need Not Kill Your Retirement

Hospital Indemnity Insurance Keeps Your Retirement Healthy

A hospital stay is not a matter of **IF**, but of **WHEN**. Can your budget survive a hospital stay daily copay? A 3-day to 1-week stay can cost you \$900 to \$2,100 out-of-pocket.

Hospital Indemnity Protects You for Pennies on the Dollar!

- Pays YOU a flat amount per day you're in the hospital!
- This is paid directly to you, NOT the hospital!
- Pay your bill and keep the rest!
- A 2-DAY stay pays for the year!
